

RAGAMAIE NAGINENI

Aspiring Software Development Engineer — Full-Stack Developer — Problem Solver

 github.com |  linkedin.com/in |  Portfolio |  ragamai.e.n@gmail.com | +91 8522820594

Education

Indian Institute of Information Technology, Sri City

2023 – 2027

Bachelor of Technology in Computer Science and Engineering

Technical Skills

- **Programming Languages:** JavaScript, Python, Java, C, SQL
- **Frontend:** React.js, HTML, CSS, Responsive UI Design
- **Backend:** Node.js, Express.js, REST APIs, GraphQL
- **Databases:** MongoDB, PostgreSQL
- **Tools & Technologies:** Git, GitHub, Docker, Swagger, CI/CD Pipelines
- **Core Subjects:** DSA, DBMS, Operating Systems, OOP, Computer Networks

Projects

DRAKZ – Full Stack Financial Management Platform

- Developed a scalable full-stack platform .Built RESTful APIs and backend services using Node.js and Express.js with modular architecture
- Designed MongoDB schemas and optimized CRUD operations for efficient data handling
- Integrated Swagger API documentation for streamlined backend testing and developer collaboration
- Configured deployment workflows using Docker and CI/CD pipelines for faster delivery and maintenance

UAV-ISAC Optimization

- Developed optimization models for UAV-assisted Integrated Sensing and Communication systems
- Implemented fairness-aware scheduling and multi-objective Pareto optimization techniques using Python
- Simulated network performance and analyzed power allocation strategies for efficient communication systems

IoT Fog-Cloud Energy-Aware Task Offloading using iFogSim

- Built a simulation-based solution for energy-aware task offloading in IoT-Fog-Cloud environments
- Implemented network-aware scheduling algorithms using iFogSim and Java
- Evaluated latency, energy consumption, and task execution efficiency across distributed systems

Experience

Web Development Trainee

Dec 2023 – Jan 2024

- Developed backend APIs and handled structured data workflows for web applications
- Implemented validation and error-handling mechanisms to improve application reliability
- Debugged and optimized application performance to enhance responsiveness and scalability

Achievements & Coding Profiles

- Ranked **102/1603** in Aithon Hackathon
- Solved **130+** problems on LeetCode focused on Data Structures and Algorithms
- Active contributor and Core PR Member at Epoch Club
